EDUCATION

University of Michigan

B.S.E in Data Science, Minor in UX Design

Ann Arbor, MI

Aug. 2023 – Present

Relevant Coursework: Web Systems, Data Structures & Algorithms, Web Design, Development and Accessibility

TECHNICAL EXPERIENCE

Circadian - Social Sleep Tracking App | *SwiftUI, Go*

Aug. 2025 – Present

- Developed a comprehensive iOS application that gamifies healthy sleep habits through social accountability and data visualization.
- Architected a multi-tab SwiftUI interface featuring real-time sleep tracking, interactive statistics dashboards, and social engagement features.
- Implemented advanced data visualization using Swift Charts to display sleep patterns, streak tracking, and personalized goal progress metrics.
- Designed UI/UX mockups in Figma and implemented MVVM architecture patterns for clean separation of business logic and view layers.

Espresso Explained | *HTML/CSS/JS*

Dec. 2024

- Designed and developed an accessible, responsive website serving as a digital coffee drink dictionary, following WCAG guidelines to ensure usability across devices and screen readers.
- Integrated interactive front-end features using JavaScript libraries (Vanilla-Tilt, Particles.js, model-viewer) to create engaging 3D visualizations and animations while maintaining performance and accessibility.
- Applied user-centered design principles by curating content, visuals, and typography (Google Fonts, custom icons) to deliver a clean, intuitive, and responsive interface.

Visualizing F1 Positions | *React.js, Google Charts, OpenF1 API*

Aug. 2024 – Oct. 2024

- Built a single-page React.js application visualizing Formula 1 driver positions over time using dynamic, interactive charts.
- Integrated real-time race data from the OpenF1 API with Axios, transforming raw data into actionable visual insights via Google Charts.
- Designed a responsive, accessible UI and optimized front-end performance through modular components and React hooks for state and data management.

EXPERIENCE

Communications Assistant

Sep. 2025 – Dec. 2025

University of Michigan – IOE Department

Ann Arbor, MI

- Owned updates to the department website and content calendar to ensure timely delivery of events and announcements.
- Led weekly newsletter distribution via Mailchimp to 900+ student and faculty subscribers, curating high-impact departmental content.
- Drove social media growth through visual content creation, increasing reach by 63.3% and generating 300,000+ views over 90 days.

Creative Design Team Member

Jan. 2024 – Aug. 2025

Michigan Advertising & Marketing

Ann Arbor, MI

- Conducted in-depth research on client brands to develop informed creative strategies.
- Collaborated with the market research team to design solutions tailored to client requirements.
- Provided design consultations to 4+ companies, delivering both digital and print design solutions.
